***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

The present invention pertains an on-chip test apparatus and a method thereof.

The prior arts of record, however do not teach that the on-chip test apparatus or the method thereof comprises a first and a second latch, a test structure, a selective coupling means for selectively coupling the output of the first data latch to the input of the second data latch either directly or through the test structure, the selective coupling means including a first multiplexer having a pair of first mux inputs and a first mux output, and a second multiplexer having a pair of second mux inputs and a second mux output, one of said pair of first mux inputs coupled to the first data latch output, the first mux output coupled to an input of the test structure and one of the pair of second mux inputs, the other of the pair of second mux inputs coupled to an output of the test structure, the second mux output coupled to the second data latch input. Hence, the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus claims 1, 5-11 and 16 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
